## INTERESTS AND ACHIEVEMENTS

**ACADEMICS / FUTURE:** Wants to study computer engineering or medicine

**SPORTS / ARTS:** Swimming, volleyball, basketball

**CLUBS / INTERESTS:** Student council, physics, photography

## ALL ABOUT ENION

Enion, or "Noni" to his friends and family, is a well-rounded student with many hobbies and interests. He shares, **"my hobbies play a major role in my life; they help me build my character and be a better person."** Of all his hobbies, swimming has had the most significant impact on his life. He has won many awards for his swimming skills and is thankful for the support of his friends and family. Noni also enjoys basketball, volleyball, puzzles, and funny memes.

*Enion's teacher says  
he is...*

- Energetic
- Mature
- Respectful

Noni's favorite household chore is gardening in his family's **"big garden, full of trees, flowers, and some fresh vegetables, which my mother loves to plant."** At school, Noni is particularly interested in science classes, especially physics and biology. His interest in science guides his future plans to study either computer engineering or medicine. He is further motivated by his older brother, who he calls **"my role model,"** who's currently in medical school abroad.

While in the U.S., Noni can't wait to create **"unforgettable memories"** with his host family and new friends. He is eager to participate in family gatherings and activities, saying **"I hope to find another place in this world that I would become pleased to call home."** In addition to learning about US culture, Noni is also excited to share his Albanian traditions with his new community, as he says **"sharing them is a thing I really enjoy doing."** Noni tells his future host family, **"Hoping that I will be given the chance to meet you and be part of your family, I wish you all luck and health for your family!"**
