ALL ABOUT *Diego*

Introduction: Hello! In this letter, I will tell you things about me and my daily life.

First of all, I will introduce myself. My name is Diego, I am 15 years old...

I am an only child and I live with my mother in an apartment in the centre of the city, near the Royal Palace. My family is not very large, my mother has three brothers who live in different parts of Spain, and two of them live more or less close and one far away. The closest one is called Juan Carlos and he is the one I spend more time with since he occasionally comes to my house for dinner or to spend the day. The other one is called Miguel, he lives with my two grandparents in a village, one hour away from my city, and he has a dog that I am very fond of because I have known him since I was very young, with Miguel and my grandparents I spend most of my entire summers in the village. ...

To spend the year in the United States, I would like to be in a small family with children, if it can be a boy of my age it would be perfect, between 16 and 17 years old. I think it would be the best to be able to enter the society there and have someone who understands me at all times, and also we would have a great time. It's time for you to know a little about my hobbies. What I like the most is playing soccer, with my friends, I love to spend time playing this sport because I love to spend time playing this sport because I forget about everything and I only think about having fun.... Skiing is another of my hobbies, I'm good at it and I usually go with my uncles. I also like to ride my bike and surf in the summer... I have travelled a lot both within Spain and abroad... All these places I have been to are amazing, they are different cultures and in each of them you learn something new... I am very excited, I have been waiting for this opportunity for a long time, I want to meet the family and learn new things that in the end is the most important thing in the exchange.

Best regards,

Diego
