ALL ABOUT *Pablo*

Introduction: I am the youngest of three brothers. Since I was child, I have always been very sociable. Thanks to this I continue to keep friends with more than 10 years of real friendship.

In my family there are 5 people. My mother, Rosa, is the funniest one, she also is a hard worker, she works as a teacher and she is very honest. My father, Jose Ignacio works as a professor in Loyola University. He loves sport, he practiced basketball during all his life, but now he practices athletics. He also loves spending time with us and he loves to make jokes. My oldest brother, Ignacio studies Engineering in the University, he loves spending time with his friends and with his family, he always supports me in everything, and he motivates me to keep going with everything, besides that he is very loyal and honest. My oldest sister, Marta studies Business and Law. She is very kind, hard worker and outgoing. My family always supports me, about making exchange programs.

From a very young age I started doing sports. The first was soccer, in the local team of the town where I live. I've never been good at it, but I had a great time with my friends... after that I started to play tennis, where I stand out the most, and where I spent the most time, but I got tired. Then I practiced soccer again, but this time I chose indoor soccer, with all of my friends, here we won a League... I decided to play rugby where I spent 3 years. My team won 3rd place in the Spanish rugby championship and the next year we won 5th place... so The last 2 years I've practiced rowing but just only to pass the time....

I really enjoy listening to music. I listen to every kind of music like Rap, PopTrap, even Reggaeton. My favorite singers are Pop Smoke, Lil Tjay, TuPac, Bad Bunny among others. Aside from being a great athlete and a fan of music, I also really enjoy the visual arts, filming a few shorts movies and taking photos of the soccer players for the local soccer team...

Finally I would love to participate in this adventure to improve my skills and my english level , also to develop myself as a person and to discover myself. In brief, my life will experience a huge change. To read more of Pablo's letter contact us:
