ALL ABOUT *Maria*

INTRODUCTION: My name is María and I am 15 years old. I live in the north of Spain in a city by the sea. This part of Spain is quite different from the rest of the country since it is not so hot and the climate is more humid and rainy, it looks a bit like Great Britain. My region is considered one of the "Celtic nations" just as Wales or Scotland are in the UK or Bretagne in France. That is why our regional music instrument is the bagpipe. I study tenth grade and I am a good student, although I am a bit messy with my room, the truth is that in my studies and with my responsibilities I am a hard-working and very disciplined person...

I am a person who enjoys his family but at the same time I am quite independent and also a bit shy, especially at first when I meet someone, although later I gain confidence and forget my shyness. Apart from volleyball I really like music, my favorite group is "One Direction" and I really enjoy listening to the songs of my favorite singer from the group which is Harry Styles. I also enjoy going out with my friends to walk along the beach in my city and then have a soft drink or ice cream, am,....

I would like to go to the United States to have a great international experience. I believe that it is essential in the formation and development of a young person to have known other cultures and other ways of thinking. ...

Of course, it is also very important for me to learn a new language, we all know the importance of the English language in the world. At home they have always transmitted that importance to me since my parents when they were young also did something similar, living in Italy for several years...I send you a big greeting and a hug. I really want to meet you and share this wonderful experience with you. Maria
