ALL ABOUT

Hello, my name is George. I am living in Ukraine, in the capital city called Kiev. Here I have met many people and seen a lot of things. Now I am applying to the American school program to see more places, meet different people and learn different points of view. I think, American school program is an excellent opportunity to get new and important experience.

First of all, I like traveling! ... I have never been to Amerika. And I would like to see how it is different from other countries. I have only heard some stories and seen some films about living there. Moreover, I have never lived long outside a big city. So, for me, living in 2 floors house in a small town, will be something new....It is cool to go somewhere to explore places inside your city that you have never seen or had no idea that they could be "right there". For example, it was unexpected for me that we have actual forest in the middle of my city. I am not fussy, it is not a big matter for me where to go. I like walking on city streets or in a forest...

One of my nicknames is "Artistic person". I ended music school and was learning how to draw in art school for 8 years. I am not drawing every day or play the drums, I just like to do some beautiful things. Also, some may call me a perfectionist, and I will not deny. I like the ordinary and when something looks or hears good.

I have a strong conviction: "My own body, is the only thing that will never let me down". To make my body serve me longer I train it in gym. In fact, I do not like sports, but gym is another thing. I consider myself to be a bodybuilder; I like to see my body getting stronger, it makes me more confident, and so happy....

I am looking forward to spend a year in USA. I am very excited with this opportunity. I am hoping to receive very useful experience that will help me in my life.
