ALL ABOUT *Kudratillo*

Introduction: I am glad that I am writing directly to you. In this letter, I will write to you about numerous things about myself. Firstly, I am a boy grown-up in a rural area. My village was considered as a poor and invaluable place. But I grew up there. I love my village very much, but I live in a city now. I am a boy who is a little bit shy. But I like talking with people a lot. I have a big family....

We talk and discuss different topics as we are always together at dinnertime. We like helping each other. We enjoy watching films, traveling, and dining together....

They all contributed to being who I am now. My duty at home is to wash dishes and to clean rooms every day. I do not mind doing these because I do not want to see my home full of trash. Then, I have a passion for football and tennis. I have been playing football for 4 years. I can stay healthier and more energetic if I do them daily. I cannot play tennis, because of my time management. However, I want to play some...

In my childhood, I wanted to be an ambassador. Everyone recommended me to give up, but I did not. They said it is not a job. My purpose was strong and it is going to happen. Moreover, I am very excited to go and meet with you. I feel like I am going to be super-happy. I just have something you may need to take into account. I do not like dogs and cats. Sorry about that. I will be happy to live with you, so I hope to become your family's member. We will make a beautiful and quaint family. I speculate to improve my outsider qualities from this program. I want to exchange cultural ideas and I will be very pleased to know about your traditions. I want to get rid of my shyness and I want to know the American family of yours. Thank you again and see you in America. Kudratillo
