### ALL ABOUT *Giulio*

Introduction: Hi my name is Giulio. I come from, Italy. I'm 16. I live in a flat, my house is near the park where I use to hang out sometimes whit my friends and my family. I go to a public school that is about two miles away from my house; I go school six days per week, six hour per day; my favouourite subjects are philosophy, physics and maths. My family is made by 5 people: my dad, my mum and three sons, I'm the oldest one; I got a cat and an freshwater aquarium as well.

My favourite sport is snowboarding because I like mountain's landscape, snow and going down tracks. I like technology too, I like computers since I startet using them and tryng to make them as much powerfull as they can be, I've studied some programming languages such as phyton, arduino and java. Fishing is my second favourite sport, because you never know what you're going to fish, doing it with my friends during spring and summer.

I like more or less any kind of food, but my favourite (beyond tipical italian foods) is meat, my dad becomes a chef when he cook's it. My favourite tv shows are animated ones, I like The Simpsons, Family guy, Futurama, Rick & Morty, Desenchantement; my favourite movies are grown ups 1 and 2, and some of the Miyazaki's movies.

I use to play videogames but since i started high school I don't play a lot. I play the piano, I know few songs, and I play it scometimes in my church. I'm thrilled and excited to spend one year in the US being one of my favourite places I've ever seen: I've been in Florida in 2016 (from Orlando to Key West) and in California and Arizona in 2018
