Can Live with Pets? Yes, of course

Double Placement? No

Single Adult Host? Yes

HOME LIFE

I live with: Dad

INTERESTS AND ACHIEVEMENTS

FUTURE: would like to be an orthodontist. At first I was hesitating between being a lawyer and being an orthodontist but I realized that what I liked to see, analyze, ask myself questions about it was with the branch of science.

SPORTS & INTERESTS: Volleyball, Meeting with Friends, Listening to popular music

ALL ABOUT Cayetana

Introduction: My name is Cayetana and I'm 15 years old. My birthday is the 14th of May and my favorite hobby is playing volleyball. I am a teenage girl who loves hanging out with her friends, working hard for what I want and playing volleyball among other things.... I live with my father, his name is Diego and he works in his own company. I always have such a fun time with him whenever we go on our trips which are always spontaneous and I love them. I used to live with my sister Daniela, but she now lives elsewhere because of her studies. Daniela and I get along very well, and are inseparable. We have done so many different things together, and I couldn't choose one favorite thing about her... When I'm with my friends I like going out for dinner or lunch and just catch up with them or go to a bar and have soda while playing music. My favorite sport is volleyball, I have been playing for years and I have a passion for it. I currently play in a team in my area and I am a hard-working player who likes working in groups. whenever I am alone I like to spend my time either reading, I love reading poetry books and really getting to understand what the author is saying, or watching my favorite TV shows or movies. No matter how many times have I seen it I always enjoy them like if it was the first time. My favorite TV show is gossip girl and my favorite movie is twilight, and I have watched them over three times. I take my studies very seriously because I am conscious of how much my parents have work to get me to where I am. Over the past years I have gotten very focused and I know my goals and how to achieve them. I want to eventually become an orthodontist and I think I will get to it. In school my favorite subject is biology and it really has helped me to see my future goal is something doable for me.... Something very important for me, is eating right. I love vegetables and I enjoy meat and fish. I very much enjoy and love chocolate, but I don't eat it very often...
