Introduction: Hello!

My name is Alba. I am 15 years old and I will be 16 on November 18th 2021. We are four in the family. My father, my mother and my brother: he is the youngest in the family and he is only four years old. We really like to travel, go in excursions in the mountains, go for walks at the beach... In short, we enjoy nature and spend family time in. We are a very united and cheerful family! For my exchange year, I would like to live with a big family that has brothers or sisters. The reason for that is because I only have one got brother, he is so kind but also too young. I am sure that I would connect with you and the experience will be awesome.

I am a really active person. I really like doing a lot of activities like running, dancing, hiking,... But my favorite sport is without a doubt volleyball. I have been practising it since I was 7 years old and this sport helped me meet really good friends. We have won some championships and we participated in the Spanish championships in the Canary Islands. It was the best experience of my life. Each year of the summer, I participate in a beach Volley Chapionship in August that I would not like to miss- I am the leader of the team. Also I do surfing, windsurfing and sailing but without competing. I really like watersports, sensing the sea in my face is so relaxing and comfortable. If it's possible, I would like to stay in a city or town near the sea in the USA.
