### ALL ABOUT *Greta*

Introduction: Dear host family, My name is Greta, it has Greek-Latin origin and means: ,Pearl,and, figuratively, a precious, rare person.

I'm so excited to realized my dreams: improving my English in a country on the other side of the world completely different from mine and becoming a perfect American girl.

I am a very sunny girl who loves to be with people, i love my family, my friends and i spend most of my time with them.I like studing enough, I read a lot of crime and horror books, but I admit that I also really like love stories (I'm a little sensitive, but don't tell anyone).

I love practicing sports, in my life I have practiced several sports, but the only ones that have really stolen my heart are rhythmic gymnastics and horse riding.

I practiced rhythmic gymnastics for 12 years, I started at 4 in a small gym in my city, along with many other girls. Unfortunately last year I had to interrupt my path due to back problems, this was one of the most painful blows of my life for me, because a displaced vertebrae managed to take away one of the most important parts of my life.I love all kinds of animals, but I have always had a special relationship with horses, we always understood each other without the use of words, just a glance. For 7 years I have practiced show jumping. Since I was little I have always begged my parents to get me a dog, but I have never been able to convince them. I got two fantastic rabbits. Steven and Maio...

My family consists of my mum, dad and brother. My mom is my point of reference for everything, I can always count on her because she is always there. My dad is my mentor. Dad gave me many important notions that I will never forget. He taught me a lot of things in the military field.

My brother Gabriele is the little one of the house. He is 12 years old and he spends most of his time with me. We are inseparable, although we often fight, but I think it's normal between brothers. For him I gained one of my greatest hobbies: COOKING...

In our home, respect and education are the daily bread. I don't know where my passion for the English language started, but I can't wait to improve it...
