ALL ABOUT Thomas

Introduction: Dear host family,

I have always wanted to do this experience and after two years I was finally able to convince my parents. I'm Thomas, I'm 16 and I live in Italy, in a very small village.

In my family we are in 4 people: my father who works as a sales representative; my mother who works as a nurse and my brother who works as a worker. I also have a little dog, a Chihuahua, named Puffo (Smurf), he is 5 years old. I decided to call him Puffo because he was so small that he looked like a smurf. I get along quite well with my brother even though we don't spend much time together because he works a lot and I go to school, we don't have many interests in common also because he is much older than me. In fact I really hope to have a host brother or sister of my age so that I'll be able to test if having a brother or a sister of my age is as good as I think... My favorite subject is Natural Sciences (chemistry and biology) and English...

I always try to see the glass half full, instead of half empty. I am proud of myself because I have never given up and have always faced situations with my head held high, especially when 5 years ago doctors found me a heart problem and for this I was hospitalized and now I have a pacemaker, do not worry! I can live my life in a very normal way and I can do everything, I just have to be careful in some situations. In my free time I really like going out with friends, watching movies (horror movies are my favorite) or TV series, playing board games, listening to music and shopping and I like to walk and see the sunset....

A sentence that completely reflects what I think about exchanges is: "Exchange is a year in our life, it's a life in a year" it's and getting used to other cultures so that I can have new experiences and meet new people. I think there is always something to learn from the others. I don't know what I'll do in the future; but I have In fact, I know that next year I'll totally change my way of living, and I'm really curious to know new things and to face the world around me.

I wish I'll feel part of your family and you'll be proud of me as your son, as I would like that this experience won't be just great for me, but also for you.
