ALL ABOUT *Nodirakhon*

Introduction: Dear American Family, first of all, I want to thank you for reading my letter in which I want to introduce myself and tell you something about my life and my positive surrounding. My name is Nodirakhon, but my friends calling me Andy. I'm an open-minded, funny, spontaneous, sportive, and creative person. I love laughing, I'm an optimistic human and I always make the most out of every situation. I live in a "green city" in Uzbekistan. There are a lot of trees and varieties of flowers and plants. My hometown is developing every day and becoming more luxurious and attracts the attention of many tourists with its charm and history...

My family is my support. They are people who inspire and care about me more and better than anyone else. In the most difficult times, we turn to each other for advice and provide all the best to make each other feel better. They are of great importance to me in my life...

Sundays. I walked my life path with my close friends. They give me the best memories. I have foreign friends. We have different languages, culture, traditions, interests, worldview, but this does not prevent us from being able to make common plans for the future and share our experience. Thanks to my friends, I learned to look at the world through the eyes of an optimist, to dream and believe in myself. I have friends from my music school with whom I have known for a long time, with whom we managed to become one big united force. I really like to spend time with them performing on a big stage in front of fans. We walk together in the arms of nature and go on hikes, write our own poems, composing songs and playing musical instruments. I am proud to have such friends who can stand up for me at any moment. Dear family, I want you to know that I want to connect my future with creativity and art, because this has already become a part of my life....

I am looking forward to get to know you and I'm so thankful that you consider hosting me for one year. I'm hugging you across kilometers and time zones:) So I hope I will hear from you and even more to be a part of your family, Yours ,Andy:)
